SLRON HI Book Club

Date: 5pm, August 18

Venue: Staff Restaurant

Book: [Ask Again, Yes by Mary Beth Keane](#)

Staff are welcome to come along to our book club meetings, no membership is required. Meetings are very informal. Alternatively you could share your thoughts on the book via email, send to library@slh.ie and we will upload your comments (anonymously if preferred!) to the intranet.

NHLKS Library Response to Covid-19

The National Health Library and Knowledge Service established a Covid-19 Evidence Team to produce evidence summaries for fully formulated research questions relating to Covid-19 management and treatment. HSE staff can submit a question [online](#) and the evidence team will produce a comprehensive evidence summary which is then sent to the requestor and subsequently published on www.hselibrary.ie and Lenus. This service is available to all HSE staff. Go to our library website www.hselibrary and click on the 'submit a summary of evidence request' link available from the homepage.

Covid-19 Respository

The Covid-19 repository was launched in a broadcast email in April. This site provides access to clinical guidance and the latest evidence to equip the clinical community in Ireland to respond to Covid-19. The repository includes HSE interim clinical guidance, evidence summaries produced by the HSE library service.

The repository includes a cancer care section which provides interim clinical guidance on individual tumour sites, key performance indicators, multidisciplinary indicators, radiation oncology, rapid access clinics, surgery and systematic anticancer therapy.

The screenshot shows the 'Covid-19 HSE Clinical Guidance and Evidence' website. At the top right, there is a search bar with the text 'Search this Guide' and a 'Search' button. Below the title, a note states: '* Phone users, please scroll down to view content. Queries to: clinicaldesign@hse.ie'. The main content is organized into two columns. The left column is a navigation menu with red buttons for: 'HSE Repository for Interim Clinical Guidance intended for the Clinical Community', 'HSE Operational Pathways of Care', 'Ethical Framework', 'Infection Prevention and Control for Health Care Workers', 'Infection Prevention and Control HIDE', 'Primary Care', 'Acute / Maternity, Paediatric Hospital Information', 'Cardiopulmonary Resuscitation (CPR)', 'Cancer Care', 'Individual Tumour Sites', and 'Key Performance Indicators'. The right column is titled 'Cancer Care' and contains two sections: 'Interim Clinical Guidance' with links for 'Individual Tumour Sites', 'Key Performance Indicators', 'Multidisciplinary Team Meetings', 'Radiation Oncology', 'Rapid Access Clinics', 'Surgery', and 'Systematic Anti-Cancer Therapy'; and 'Summaries of Evidence' with a link for 'Cancer Care Summaries of Evidence'.

To access the HSE Clinical Guidance and Evidence Repository go to www.hselibrary.ie and click on Covid-19 Evidence Summaries/Clinical Guidance. Alternatively click on the link below: <https://hse.drsteevenslibrary.ie/Covid19V2>

New Resource: Web of Science

Web of Science is a platform that allows you to search multiple databases designed to support scientific and scholarly research. It includes over 21,000 peer reviewed high quality scholarly journals, over 205,000 conference proceedings and over 140,000 editorially selected books.

Web of Science is available to all HSE library users. Access is available from www.hselibrary.ie. A link is available from our list of national resources. See below. Access is available remotely via OpenAthens.

For live training and short instructional videos go to <https://clarivate.libguides.com/webofscienceplatform>

The National Health Library and Knowledge Service has made access to the point of care tool, BMJ Best Practice (BMJBP) freely available to **everyone in Ireland**.

What is BMJ Best Practice?

BMJ Best Practice is a clinical decision support tool that provides fast, easy access to the latest evidence on health conditions. Updated regularly, BMJBP offers a step-by-step approach to help manage patient diagnosis, prognosis, treatment and prevention.

Paul Reid, CEO of the HSE said: “The clinical resource gives Irish health professionals immediate access to the latest clinical evidence and diagnostic tools, no matter where they are based. It will have a very significant impact on patient care’

Access BMJBP here: <https://bestpractice.bmj.com/>

Create a free BMJ Best Practice personal account from your desktop and download the BMJ Best Practice app using your account login details. For more information: <https://www.bmj.com/company/bmj-resources/bmj-best-practice-2/download-the-app/>

St. Luke's Radiation Oncology Network Research Activities

We would like to document all research completed by SLRON staff including journal articles; books or contributions to books; oral/poster presentations at conferences; PhD/doctorate research etc. Please submit your latest research to library@slh.ie and we will include details in our next News Update due out in September 2020.

[New: Elsevier Clinical Skills](#)

Elsevier has provided free access to [37 clinical skills](#) via their elearning platform: Clinical Skills. These skills are particularly useful for nurses and other healthcare professionals responding to Covid-19 pandemic. Each skill includes a skill summary, a video or demonstration on the skill and a self test offering immediate marking and rationale.

The screenshot shows the Elsevier Clinical Skills website. At the top left is the logo 'ELSEVIER CLINICAL SKILLS'. To the right is a blue button that says 'LOGIN TO CLINICAL SKILLS HERE >'. Below the logo is a navigation bar with links for 'Home', 'Skills', 'Take a Trial', and 'Why ECS?'. To the right of the navigation bar is a search bar with the placeholder text 'Type here to search...' and a magnifying glass icon, followed by a 'Help' link. Below the navigation bar is a paragraph of text: 'Do you want to learn more about the Elsevier Clinical Skills? Then why not view our sample skills below. All skills follow the same format, offering an engaging and interactive way to reinforce learning.' Below this text is a table titled 'Sample Skills' with a list of skill titles:

Sample Skills
Anger Diffusion (Mental Health)
Assessment of Breathing
Blood Glucose Monitoring
Blood Pressure Recording: Electronic Sphygmomanometer
Blood Pressure Recording: Manual Aneroid Sphygmomanometer

Clinical Skills is available from our homepage on www.hselibrary.ie under list of Electronic Resources available to all HSE library members. No login is required.
